ABSTRACT

JOHN ROBERT R. TORTO, MA. LEA M. PARREÑAS and FRIENDLY B. LUCES. Central Philippines State University, Victorias City Campus, Negros Occidental April 2019. Assessment on the Quality Service of the Central Philippines State University Canteen: Basis for Menu Development.

Adviser: Emmanuel M. Salaza, MPA

This study is ssessment on the Quality Service of the Central Philippines State University Canteen which will be use as basis for its menu development. In the assessment on the service quality of the Central Philippines State University Canteen, a moderate results were revealed in assurance, empathy, reliability, responsiveness and tangibles. In the difference analysis, the not significant results was found in the difference in the level of assessment of the respondents on the service quality of the CPSU canteen when grouped according to age, sex, and civil status. However, it was found significant when grouped according to course specifically in reliability; and daily allowance specifically with the assurance. In view of the foregoing findings, the researchers have drawn into conclusion that the Central Philippines State University school canteen is in need of development in all areas most especially in the assurance and reliability. In as much as the canteen management and the status of the school canteen were assessed by the respondents to be inadequate and have not reached the level of excellence which everyone, the following recommendations are made: (1) The management and planning of the canteen's staff need more effort towards its affectivity and success. Effective management has something to do with professional development that should be

undertaken by anyone who wants to lead a group or a department. The most important finding of this study is the need to provide proper training for canteen staff. Enough knowledge is imperative to canteen managers for their role is to make decisions that will affect the entire canteen organization; (2) In terms of proper preparation, formal trainings and seminars should be conducted and participated in by canteen staff and officials so that they will improve their skills on the proper handling of food, food preparation, food selection, customer satisfaction through effective interpersonal skills and total quality management of all the aspects necessary for an improved and well-managed canteen.
